Why Frameport?

The top and bottom of every slab door is factory-sealed with two coats of UV Activated polyacrylic varnish.

Stiles are manufactured with Engineered & LVL technology to eliminate warp and feature solid wood 5/8" Edge Bands for trimming & sizing.

Contoured panels provide a snug fit, preventing them from moving, yet accommodating expansion due to changes in humidity and eliminating panel shifting after finishing.

Louvers are up to 50% thicker for increased strength and no warping.

FSC Certified Forest and Factory

The best quality and value in an interior pine door...only from Frameport
